

Vet Ethology

HAPPY, HEALTHY
HUMANS & ANIMALS

CODE OF ETHICS

We are committed to respect an ethical charter established and signed by the entire Vet Ethology team.

ENTHUSIASM, MOTIVATION AND POSITIVISM OF THE TEAM IN FAVOUR OF THE HUMAN ANIMAL RELATIONSHIP

We are committed to work in a positive and creative spirit with enthusiasm and motivation. We also undertake to promote listening and dialogue and to establish a climate of trust, tolerance and respect.

Our goal is to put the human-animal relationship back in the centre of attention and to give it the place it deserves.

Our approach aims to motivate and involve both the animal and its owner. The notions of pleasure, respect and harmony are essential to us, our ultimate goal being to build a balanced relationship and / or restore physical and emotional welfare.

RESPECTING ANIMAL WELFARE BASED ON INDIVIDUAL NEEDS

We are committed to offer you solutions and treatments that respect the wellbeing of your pet. Pain and stress management of the animal is indeed a daily priority for us.

Within Vet Ethology, we commit ourselves to use learning, education, management or care techniques described as "soft and positive". We ban all forms of physical and/or psychological violence. We also reserve the right to exclude from our structures owners who apply such methods.

We make a point of honour to adapt our tools according to the individual needs, whatever the animal, his age and his temperament. We will adopt a different approach with a puppy exploring the world, a horse with a traumatic past history or a cat at the end of his life.

We have a wide range of resources: scientific knowledge, experience and practice in the field. Continuing education, patience, observation determination, but also... knowledge in the use of essential oils, homeopathy, herbal medicine, allopathic medication,... These are just some of the tools that are part of our "solution box" of quality.

SKILLS

We are committed to maintain a high level of competence and excellence through continuing education. Each member of the team has his own know-how in which he trains intensively and continuously.

Our complementary knowledge, our open-mindedness and willingness to cooperate, allow us to consult each other set up an interactive team dialogue in order to provide your companion with the most appropriate care as soon as possible.

This aspect of cooperation of our organization is particularly important to us and allows us to be stronger together.

LISTENING CAPACITY AND TRANSPARENCY

We are at your service to answer your questions and we are committed to give you clear, accurate and honest medical information about the health of your pet.

AVAILABILITY

If most of the care, examinations and consultations can be easily planned, emergencies can occur.

In order to ensure the follow-up of the animals for which we are responsible, our allopathic veterinarians ensure maximum availability for any veterinary emergency. If they are unable to help you, you will be redirected to an emergency service.

VETERINARY ETHICS FOR REFERRED CASES

Referred cases follow the principles of the Code of Veterinary Ethics.

The referring veterinarian will receive a complete written/oral report of the consultation and its conclusions within 48 hours of the consultation.

Our veterinarians undertake not to deliver comfort medication outside the scope of the prescription inherent in consultation performed and not to perform acts of

convenience outside the initial consultation motivation except at the explicit request of the veterinarian and in agreement with the owner.
